

REMARKS

In response to the Notification of Defective Response, dated April 28, 2008, Applicants have amended the instant specification to replace the paper copy of the sequence listing with a sequence listing text file, 690121_409USPC_SEQUENCE_LISTING.txt. In addition, the specification has been amended to insert the STATEMENT REGARDING SEQUENCE LISTING to its proper place in the instant application.

The above amendments, which merely direct the replacement of the old sequence listing and updates the STATEMENT REGARDING SEQUENCE LISTING, include no matter that goes beyond the original application as filed. Applicant respectfully submits that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825 and WIPO Standard 25.

Respectfully submitted,

SEED Intellectual Property Law Group PLLC

/William T. Christiansen/

William T. Christiansen, Ph.D.
